

High Performance Transmission Fluids

Divyol Power Trans C3 & C4 SAE 30 are hydraulic transmission fluid formulated to meet General Motors Detroit Diesel Allison C4 service classification recommended for all Commercial Power shift transmissions, Industrial torque converters and Automatic transmission requiring Allison C-4 Oils. This oil is blended from highly refined base stocks with special additive to impart high oxidation stability, anti-wear, anti-rust, seal compatibility and the desired frictional characteristics in service.

Application:

Divyol Power Trans C3 & C4 SAE 30 Fluids are recommended for all commercial power shift transmissions, industrial torque converters and automatic transmissions manufactured by Detroit Diesel Allison, Division of General Motors Corporation, USA. Such hauling and cycling transmissions are fitted on a wide variety of off-highway equipment e-g, dumpers, scrapers, shovel loaders, log loaders, crawler tractors, excavators etc .

Performance Benefits :

Divyol Power Trans C3 & C4 SAE 30 Fluids enable smooth operation of precision hydraulic control systems Protect gear and other lubricated parts against wear have the desired friction characteristics for smooth engagement/disengagement of clutch to provide a “soft shift feel” Give high protection against rust and corrosion to the components.

Typical Specifications of Divyol Transmission Fluids:

Characteristics	Test Method	Power Trans C3 SAE 30	Power Trans C4 SAE 30
Appearance	Visual	Bright and Clear	
Colour Max.	ASTM D - 1500	Red	Red
Viscosity @ 100°C	ASTM D - 445	9.3 -12.5	10 to 12.5
Viscosity index Min.	ASTM D - 2270	90	95
Flash Point COC °C Min.	ASTM D - 92	200	210
Pour Point °C Max.	ASTM D - 97	-18	-15
Copper Corrosion @	ASTM D - 130	1a	1a
